Overview

The Jester TLXtra is the right lighting control choice for up to 200 dimmer channels and 30 fixtures. Operation is by numeric keypad using industry standard command syntax; making the Jester TLXtra an excellent choice for theatrical and performance venues where consistent show playback is paramount.

A built in monitor port enables simple and convenient operation with channel, fixture, cuystack and submaster data all viewable using the monitor. The desk can even be operated using the built in LCD displays without a monitor if needed. Playback is by a traditional theatre playback stack, or from the 10 submaster faders.

Jester TLXtra also features an effects system, recorded pallets and an extensive library of fixture personalities making it an exciting and powerful theatrical control package that delivers.

*Monitor not included

RDM MIDI USB Monitor
