

SL PARBLAZER 100 UV

The SL PARBLAZER 100 UV is a high performance UV Par luminaire that delivers a powerful output, generating 395nm UV light from 40 LED emitters, and producing the distinctive visible glow that brings reactive materials and objects leaping to life.

The SL PARBLAZER 100 UV is an excellent quality UV wash luminaire, ideal for indoor, outdoor and wet environments and a safe alternative to HID and UV Fluorescent luminaires. The soft edged beam delivers a light that can be easily blended between multiple units, while providing a defined beam for applications requiring more control.

The SL PARBLAZER 100 UV is compatible with both DMX 512 and RDM control protocols, and more than one luminaire can be linked up via online mode and controlled via the simple LCD menu system.

Features:

- Rugged Construction
- 40pcs UV LEDs for exceptional output
- IP65 Rated
- 20 degree beam angle and 40 degree field angle
- Flicker free
- Silent passive cooling
- 8 or 16 bit DMX-512A operation
- On-board LCD Menu System for addressing and setup
- Remote configuration available via RDM
- 5 pin XLR plugs for DMX-512A(RDM) IN and THRU
- 1 metre power cable for power IN and THRU

Technical Specifications:

Version:

SL PARBLAZER 100 UV, IP65

Optics:

20 degree beam angle
40 degree field angle
40 high power UV LEDs

Controls:

DMX-512A(RDM)
Local LCD control
Master/Slave

Modes:

8 bit
16 bit

Features:

20 degree beam angle and 40 degree field angle
Silent Passive Cooling

Physical:

100 - 240VAC, 100W
352mm x 275.5mm x 202mm
8.1 kgs
CB/CE/C-Tick/cETL/FCC

Luminance:

22000 mW output
395 nm UV LED
