

**PRODUCT:** VL3015LT Spot Luminaires

**SUBJECT:** Gobo / Gag Use and Positioning

---

**Note:** This notice is for information purposes only. No action is required other than described herein.

---

### Overview

Due to the immense energy and light produced by VL3015LT spot luminaires, Vari-Lite recommends to users and owners of this fixture follow the guidelines outlined below when loading gobos or gags in any of the three rotating gobo wheels.

Review this notice in its entirety. If you have any questions as to any aspect of this Technical Notice, please contact Vari-Lite customer service at 1-877-VARILITE or +1-214-647-7880.

---

**WARNING:** Any repairs or maintenance to VARI\*LITE luminaires should only be performed by a trained and qualified service technician or at an Authorized VARI\*LITE Service facility.

---

### Gobo / Gag Use and Positioning

Vari-Lite has purposely selected a set of standard gobos and gags for this fixture and positioned them within the fixture to offer optimum versatility / performance. The gobos supplied - in the standard factory configuration - have been tested in their respective original positions to protect their service life (including when morphed between wheels 1 and 3).

For standard factory gobo / gag loads and position, please refer to the VL3015LT Spot Luminaire User's Manual. This manual is available on the Vari-Lite web site at [www.vari-lite.com](http://www.vari-lite.com).

Users can load their own patterns (gobos or gags). When using custom gobos or gags, Vari-Lite recommends the following guidelines:

- When morphing gobos, gobos should be morphed between wheels 1 and 3 only, never in wheel 2.
- Rotating gobo wheel 2 has been designated the gag (effects) wheel. Wheel 2 should only house clear type gags or gobos that permit minimum unabated light transmission.
- Under no circumstances should owners or users use or install metal gobos. Using metal gobos in the VL3015LT spot luminaire will void the fixture's warranty.

---

**Note:** Vari-Lite cannot guarantee the service life of any custom gobos or gags when used in conjunction with this fixture. Owners and users employing custom gobos and gags do so at their own risk.
