

PRODUCT: VL500 80V™ Wash Luminaires

SUBJECT: Hanging Hardware Bolt Length Notice

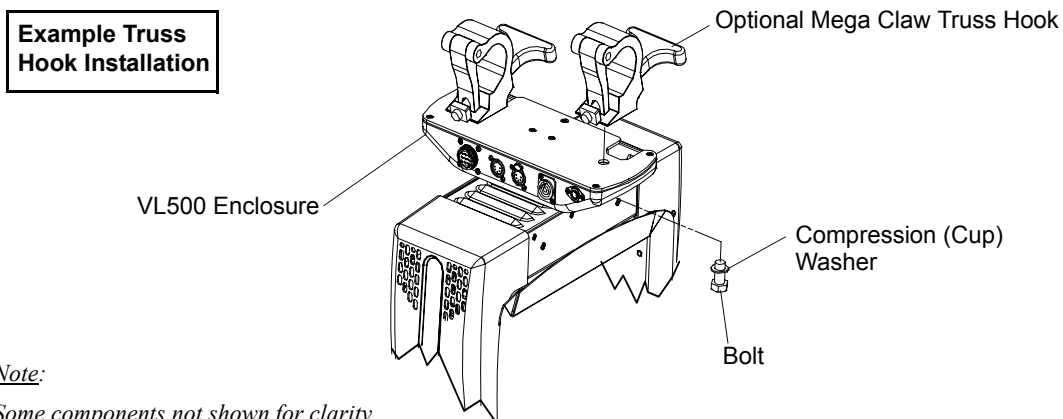

OVERVIEW

Due to the height of the VARI***LITE**® VL500 80V™ wash luminaire enclosure, customers must use a longer bolt when adding any hanging or mounting hardware. Details of the recommended bolt lengths are outlined below.

If there are any questions as to any aspect of this Technical Notice, please contact Vari-Lite technical support at 1-877-VARILITE or +1-214-647-7880.

COMMENTS

- Users and owners of VARI***LITE**® VL500 80V™ wash luminaires are not required to inspect their fixtures. This technical notice is for informational purposes only.
- VL500 80V™ fixtures utilize a special-designed foot to accommodate the LVS power supply in this enclosure. The foot on the VL500 80V™ is higher (deeper) than VL500™, VL500D™, and VL500A™ wash lights.
- In order to properly secure Mega Clamps (Vari-Lite part number 55.6840.0001), Mega Claws (Vari-Lite part number 55.6841.0001) or other hanging/mounting hardware with Series 500™ wash lights, Vari-Lite recommends that customers utilize the following bolts:
 - a. For VL500™, VL500D™, VL500A™ fixtures: 1/2" x 13 x 1.0".
 - b. For VL500 80V™ fixtures: 1/2" x 13 x 1.5".

- It is also recommended that a 1/2" compression (also called a "cup" or "spring") washer be used in conjunction with any hardware.
