SL ESTRIP 10

The SL eSTRIP 10 is the latest addition to the Showline eSeries family. Ten cells of homogenized RGBW LEDs deliver a blended wash of colour, emulating the traditional halogen strip light effect, with reduced power consumption, lower heat output, and minimal maintenance.

Control each cell individually for maximum flexibility, or in groups for applications requiring simpler control. The SL eSTRIP 10 can be easily configured to suit your design requirements. Choose the appropriate dimming curve, utilize the in-built chase programs, and mask the beam with the optional barndoor accessory.

With its rugged construction, internal power supply and simple operating system, the SL eSTRIP 10 is an ideal replacement for conventional MR-16 strip lights for all entertainment applications.
